

SHAHID RIZWAN

Carpenter

Accomplished woodworking professional with 15+ years of experience in furniture manufacturing, interior joinery, advanced wood finishing, and modular installations across residential, commercial, and export projects. Known for precision-driven craftsmanship, technical problem-solving, and managing end-to-end carpentry operations from design interpretation to installation. Highly skilled in operating advanced wood machinery, conducting finishing processes, optimising production workflows, and managing client-driven customisation requirements.

Valid Indian Driving License: (RJ19 – Issued 2019, Valid until 2035)

WORK EXPERIENCE

Furniture Maker / Self Employed

Shahid Wooden Art, Jodhpur

08/2024 - Present

Achievements/Tasks

- Executing more than 20+ customised furniture orders, including beds, wardrobes, tables, and interior fixtures built to the client's design and measurements.
- Overseeing complete production— from lumber selection to finishing—ensuring accuracy in over 200+ measurements monthly.
- Managing procurement of raw materials, negotiating with 10–12 suppliers, and controlling inventory for cost-effective operations.
- Supervising a small team of 3–4 carpenters, assigning daily tasks and monitoring finished work quality.
- Preparing detailed cost estimates for each project with accurate breakdowns covering labour hours, materials, and finishing.
- Delivering premium finishing work using various polishing, staining, and 1 coating techniques for 20+ high-end projects.
- Handling installation and on-site fitting for modular fixtures, completing 15+ residential installations.

Finishing Carpenter / Joiner

Nobel Art and Craft, Jodhpur

09/2017 - 08/2023

Achievements/Tasks

- Produced 300+ premium furniture items for domestic and export markets, maintaining strict aesthetic and dimensional standards.
- Executed precision joinery using tools and machines to complete 1000+ joints and assemblies across various projects.
- Collaborated with designers on 75+ custom concepts, converting sketches into functional and decorative wooden pieces.
- Managed final finishing and coating using polish, lacquer, and paint techniques for over 250 pieces.
- Coordinated with a production team of 20+ workers, ensuring alignment with project timelines.
- Used advanced machines (routers, cutters, sanders) for shaping and finishing 150+ carved or detailed parts.
- Conducted quality checks before dispatch to ensure export standards on over 200 shipments.
